

*Megaflow product specifications*

# JC10 F2 Stock Car filter

The multi-layer foam filter materials are similar to those in the MEGAFLOW ranges and are therefore fire-retardant. The filter is rated for up to 260 or 350 bhp, so it has plenty of capacity in reserve.

It can also be used with any of the DGAR, DGAS or DGR ranges of carburettors.

### JC10 – BHP ratings

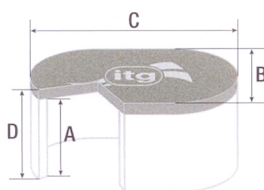

Filter element	Number of filters on engine
	1
JC10	260
JC10R	350

*BHP ratings are a guide only*

The standard JC10 is now available with an increased overall height (JC10R) for greater dust holding capacity.

### JC10 – Dimensions

### Filter size options

	JC10	JC10R
A Internal height	80	130
B Width	148	148
C Length	192	192
D Overall height	105	155

*All dimensions are in mm.*

These simple, light, but robust air filters come complete with baseplate, brackets and clips for a quick-release attachment to the Weber DGV or DGAV carburettors used in the F2 Stock Car formula.

**Important:**  
All filters must be oiled prior to use
