

PHVA

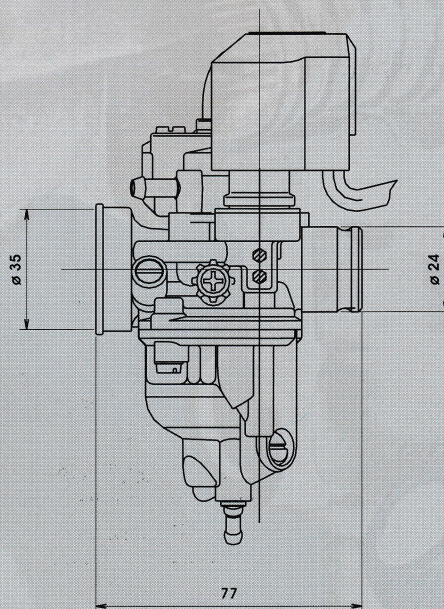

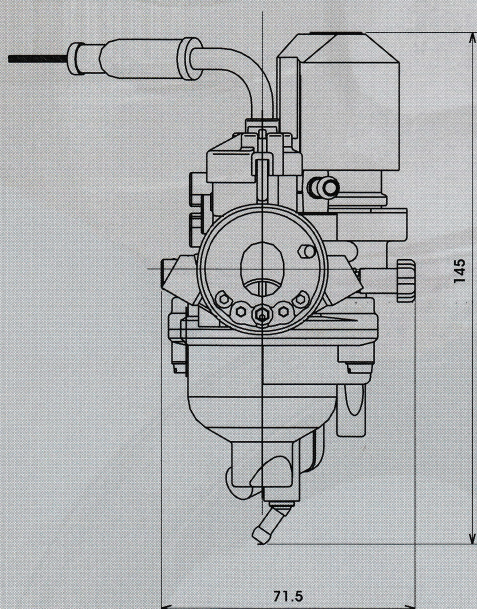

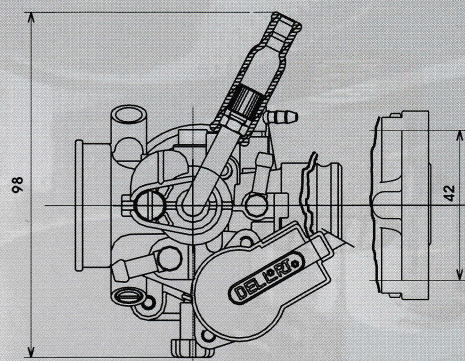

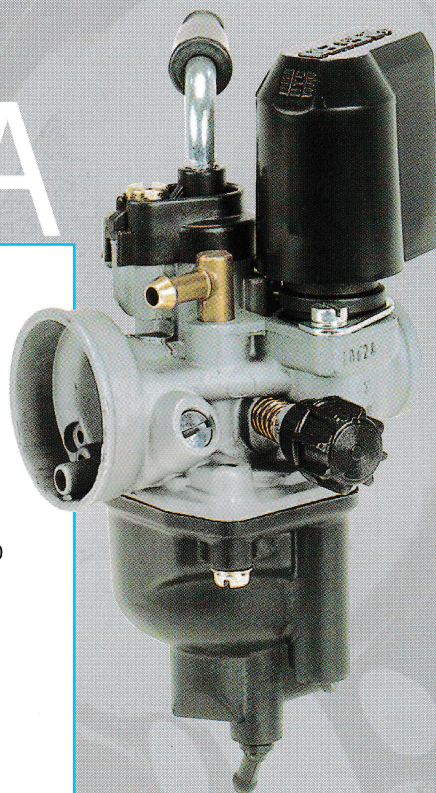

PHVA

CARATTERISTICHE TECNICHE PRINCIPALI

- Diffusore: Ø 10 - 12 - 14 - 16 - 17,5
- Per motori 2 tempi
- Valvola gas cilindrica
- Dispositivo avviamento a circuito indipendente con comando elettrico o manuale
- Sistema del minimo con getto e vite regolazione aria
- Sistema del massimo con regolazione meccanica della miscela a mezzo spillo conico
- Attacco: elastico Ø 24 - a flangia interasse m/m 42
- Attacco presa aria Ø 35

MAIN TECHNICAL FEATURES

- Choke: Ø 10 - 12 - 14 - 16 - 17,5
- 2 stroke
- Piston-type throttle valve
- Independent electric starting circuit or manual
- Idling system with jet and air adjusting screw
- Main circuit with mechanical mixture adjustment by means of conical needle
- Either Ø 24 elastic fitting connection or flange connection distance m/m 42
- Air intake connection Ø 35
